HRCSA Order Form Instructions:

Fill in the following table and email to [info@termarust.com](mailto:info@termarust.com) or call the number above.

Product	Quantity	Colour (Any Color)
TR2100 HRCSA topcoat		
TR2200HS HRCSA penetrant		
TC7101 Salt remover		
Chlor*Test kits Chlorides		
Chlor*Test kits CSN		
TRT01		

**TR2100HRCSA Self-priming topcoat** is a single component, 1 coat system applied overcoat or recoat.

**Available in any FED, RAL or any specifically defined colour.**

**TR2200HS HRCSA Penetrant** is applied ONLY inside crevices and opened connections. NOT A PRIMER.

**Termaclean** is the salt mitigation additive used to remove salts from flat surfaces and inside crevices (WJ4).

**Chlor\*Test kits** are to measure residual salts on the substrate before applying HRCSA chemistry.

**TRT01** is a chemically compatible thinner (ONLY USED TO THIN COLD TRT01) and for cleaning and flushing of paint lines.

**Thank you for your interest in the HRCSA corrosion mitigation system!**
