

ARE LIQUIDATED DAMAGE CLAUSES KEEPING YOU AWAKE NIGHTS?

TIGHT SCHEDULES ARE NO LAUGHING MATTER.

Weather, unforeseen steel repairs, delays due to lack of lane closures, same day blast & prime clauses, no tolerance for Flash rust, delayed shipments, all cheat you of the time you need to do a quality coating job.

WORK SMART, NOT HARD.

- **ELIMINATE SANDBLASTING** – preserve the coated rust free Steel, rely on high pressure water cleaning for surface preparation (can do in the rain).
- **REDUCE MULTI-COAT SYSTEMS** down to Termarust HRCSA one coat chemistry for field proven corrosion mitigation performance that easily applies on flash-rust and in 99% humidity.
- As a **RECOAT** (total removal) or **OVERCOAT** application which includes crevice corroded and pack rusted joints, connections and corrosion frozen bearing.
- Termarust HRCSA is the simplest, most efficient, **MOST EFFECTIVE FIELD PROVEN LONG TERM** corrosion mitigation system available today.

Contact us for Case Studies on how to reduce coating application headaches – *while actually enhancing your corrosion mitigation effectiveness.*
